MEDIMMUNE CORPORATE HEADQUARTERS

CHAMPION OF SUSTAINABILITY

As a Forest Stewardship Council® (FSC®)-compliant manufacturer, we pride ourselves on being a foodservice industry leader in sustainable sourcing and production methods that reduce our environmental impact. From internal recycling and waste-reduction processes, to selecting suppliers with a shared belief in green initiatives, BSI is continually seeking ways to minimize the footprint we leave on the planet.

Custom Sink

Custom Drain-Tech Sink

CUSTOM FOOD GUARDS

Working with a custom fabricator gives you the freedom to explore post and bracket styles outside the norm. Our engineers and project managers will work with you to identify the best materials and construction methods to produce unique guards that are structurally sound.

FTAS-ANTI-SPLASH

Custom Food Guard

PORTER ADVENTIST HOSPITAL

A photograph of a modern commercial kitchen. In the foreground, there is a large, curved stainless steel counter. In the background, there are more stainless steel counters, sinks, and cabinets. The floor is made of light-colored square tiles. The ceiling has recessed lighting and a large square vent. A yellow logo is visible in the top right corner of the image.

STAINLESS STEEL FABRICATION

Millwork and countertops may grab the attention, but for your employees, high performance stainless steel cabinetry, sinks, drawers, and refrigeration are the real showstopper. Manufactured in the same facility as our guards, counters, and countertops, each fabricated component is carefully fitted to your serving line to assure proper functionality, ergonomics, and workflow.
